

NOTIFICATION

UNIFORM FIRE PREVENTION AND BUILDING CODE

Owner/Occupant: _____ Date: _____

Location: _____ Fire Incident #: _____

City, Town, Village: _____ Telephone: (____) _____

To reduce the possibility of another fire causing further damage or injury, the fire department is required to complete the following notifications:

19 NYCRR 1225.1 incorporates the Fire Code of New York State which requires, at F110.1: The fire chief shall notify the code enforcement official of any fire or explosion involving any structural damage, fuel-burning appliance, chimney, flue or gas vent.

New York State Executive Law 378(e) states: In the event of an accidental fire, requiring the services of a fire department, in a solid fuel heating appliance, chimney or flue, the chief of the department so **responding may issue a temporary thirty day certificate indicating substantial conformity with the uniform code**, until such time as an official inspector...shall cause an inspection to be made and a certificate to be issued indicating conformity of such solid fuel burning heating appliance, chimney, or flue with the uniform code.

Did the fire involve the primary source of heat? YES _____ NO _____
